(4/5)

- Support for multiple density and price levels, not just 3500 tp 4500 sq ft monsters.
- Lots of diversity in size, architectural character, and affordability. Housing in mixed used centers and walkable neighborhoods
- Affordable and starter home type housing for all generations, so kids who grew up here don't have to move away to raise the next generation somewhere else.
- That increased density not increase crime
- A continuum of options where families, seniors, teachers and young people can live to keep our community "rich" with people and connections.
- A place where aging parents can live nearby
- Density and mixed use
- If greater density is necessary, use true, multistory apartment buildings on major streets, rather than more cookie-cutter houses.
- Can't do it in one sentence!
- Housing supplies optimally matched to meet
